

.....

CONTRACT CATERING SERVICES
FOR AUSTRALIA'S EDUCATION SECTOR

.....

WHAT WE OFFER

Our service offering will be tailored to the specific needs of our clients and their students.

A Contemporary Dining Experience

We will work closely with our clients and their students to review the overall dining experience, including dining room layout, meal service points, flow and ambience, to ensure an enjoyable experience at meal times

Exciting Menus & Meal Choices

All menus are developed by our clinical nutritionist with direct input from our clients, and approved by our consultant dietician. Satisfying all customers is our goal, with student involvement in menu design critical to achieving this. All special dietary requirements will be satisfied.

Theme Days & Special Dinners

Our exciting rotation of themed lunches and evening meals are always highly anticipated and very popular. We base our themed meals on 'cuisines from around the world' and celebrate all our clients' annual events.

Progressive Canteens & Cafes

We offer a range of nutritious and tasty products in our canteen and cafes – with a strong focus on healthy, home-made meals and snacks that will satisfy all tastes and budgets.

Special Functions & Events delivered with Style & Flair

From working lunches to VIP events – we work closely with function hosts to ensure each event is delivered to expectations and on budget. We develop tailored, comprehensive Functions Menu Packages to meet clients' requirements.

Innovative Systems & Technology

We will introduce our custom designed Online Function Ordering Software, and integrate with any food ordering systems currently in place.

Home Away from Home

We will involve students in menu planning and development, so they feel comfortable that their nutritional and dietary needs and preferences are being met – as they would be at home.

Charitable Support & Community Engagement

We are proud to support the charities and causes that our clients are aligned to, including P&F Associations, Development & Foundation Offices, Bursary Programs and Alumni Associations.

“

“I am writing to express my delight in at the manner in which your catering team have dealt with the first busy weeks of term.

Our boarders are happy (Alleluia!), the canteen queues are long and all our guests at special functions have been well satiated and happy.

I am so sure we have made the right decision regarding our selection of catering company and I look forward to working with you well into the future.”

Anne Fry / Principal – St Vincent's College, Sydney

OUR STORY

Through the delivery of a quality product and service, Catering Industries has positioned itself as one of the country's most successful privately owned contract catering companies – where service excellence and customer satisfaction have driven us to over 40 years of sustainability and growth.

Over the years, we have created a unique team of operational executives – all whom are trade qualified chefs - with hundreds of years' combined experience in commercial catering. This is testimony to our internal culture and values where our goal is to develop a team of the industry's most talented and enthusiastic staff.

Being an active player in the educational catering sector over the past four decades has seen us partner with some of the most recognised educational institutions in Australia.

Our services focus on the delivery of nutritious, healthy and well balanced meals – keeping in tune with current food trends and service methods.

As well as satisfying the catering needs of students and staff, we specialise in Event and Function Catering, tailoring our menu and beverage packages to the specific requirements of our clients' preferences and budgets.

We operate under accredited Quality Management and Workplace Health & Safety Systems, which enforce our mantra to lead the industry with catering management systems and safety procedures.

We have developed a 'recipe for success' when it comes to providing a high quality, innovative and contemporary service for our clients.
